# YSU academic programmes evaluation summary

## The results of modules and programme evaluation

### UPGRADED MASTER PROGRAMMES

95.6% students are highly satisfied with the upgraded program. In particular the upgraded modules on scientific seminars, where the modules on entrepreneurship and innovation were introduced and extensive seminars were conducted. Among these students we had also 3 students within international mobility program from France.

## How students are using lab resources during their education and Master thesis research

The students of all the above-mentioned master programs are using the newly installed equipment under the supervision of the professional staff trained within the ABIONET project, within the laboratory classes, as well as for their thesis work research part.

# **ANAU academic programmes evaluation summary**

<b>ANAU</b>	<b>Food Safety Master Program (NEW PROGRAM)</b>
-------------	---

--	---

# ANAU academic programmes evaluation summary

## The results of modules and programme evaluation

100% of Master students definitely agree that Food Safety Master Program corresponds to our University and Country priorities definitely agree that Food Safety Master Program is required within international labor market. **Students suggestions: some modules need to be developed in terms of provision appropriate skills, bibliography**

## How students are using lab resources during their education and Master thesis research

1. Because of Covid situation, extra lab classes were organized during the second semester
2. Master thesis experiments

# SHSU academic programmes evaluation summary

<b>SHSU</b>	<b>Biotechnology (NEW PROGRAM)</b>
<b>The number of the students enrolled</b>	5 students, females with Bachelor degree in “Biology”

## SHSU academic programmes evaluation summary

### The results of modules and programme evaluation

88.3% students are highly satisfied.  
The students have noted the following:  
As it is an applied subject, they prefer the classes to be held face to face, using the laboratory  
It is necessary to raise the level of a foreign language (in particular, English)  
To raise the awareness of the newly introduced “Biotechnology” Master program and the trainings at the level of Shirak region.

### How students are using lab resources during their education and Master thesis research

The students use the laboratory equipped within the framework of Erasmus+ ABioNet program while studying the relevant 10 subjects and preparing practical and lab parts of their Master thesis.
